

Erasmus training 2020/2021

*Katsiaryna*

*WSFiZ w Białymstoku*

I feel glad to write this short report about my internship, which I spent in Spain, Galicia as an Erasmus Exchange student. This whole experience, right from the initial application process till writing this final report, will always remain of great importance to my throughout life. I will write a short summary of different stages or steps involved for making sure in gaining this wonderful experience. I've chosen internship as a copywriter, because I like writing articles and talking different languages. Once I applied for internship all process was well organized by the International Student Office who is responsible for the task. I've chosen this kind of internship in Spain because I speak Spanish and I like this culture, I wanted to improve my language skills, moreover, I've gained experience in marketing, copywriting and communicating. Being in the team along with so many international people from different countries of the world, having discussions and listening different perceptive and ways of thinking was an amazing experience. Each of us where working on articles, someone was writing, someone was editing. Moreover, we were communicating with clients as its tour agency, we also were suggesting different tours around Spain, also Morocco. As I'm speaking Spanish, English, Polish, Portuguese and Russian I could communicate with a big variety of people. Santiago de Compostela is one of the historical cities of Spain with a very big student population. There is a lot to do and explore in the city. The city has a good transportation system hence making the life very easy. They city has a lot to offer for the free time and weekends. There are a museum, theatre, some old monuments, lakes, parks, cinemas, shopping malls, night-clubs, bars and lot more. The city also has lot of traditional, continental, Asian and fast food restaurants. The Spanish are very friendly and love to have fun and party. There is always something going on around which is worth enjoying. Apart from the happenings in city, the Erasmus Student Network also organizes many trips, picnics, events and parties for the Erasmus students. I went to Barcelona for 2 days, as there is warm sea and many places to visit, I really enjoyed it. I found accommodation which was shared with other international students. The rooms were cleaned and provided with all basic necessities i.e. furniture, internet, bed-sheets, blankets and curtains etc. I will conclude by stating that this was undoubtedly a unique and life changing experience for me. Every moment was full of learning and fun. I consider myself to be part of Erasmus and having such an opportunity availed. I will thank you very much for providing me with this opportunity and will highly recommend GaliciaTravels as one of the best places to go for an exchange program.
